Professional Experience

2013-2015

Military Service - Bureau clerk - Air Force

I served senior officers within the IDF and security establishment, handling classified information, managing inquiries, and providing high level service and representation. Interacted with senior officials, managed public reception, scheduling, and organizational tasks.

2016-2018

Android Developer - Helicon books

As part of my role as a developer, I independently maintained and improved a digital book reading application. This involved implementing new features, addressing bugs, updating versions, and conducting thorough testing to ensure optimal performance and user experience.

2018-NOW

Store Manager - Levi Oved Building Supplies Stores

I am an experienced and skilled store manager, with knowledge of inventory management, supplier relations, organization, sales, consulting, customer service, marketing and an abundance of practical and technical expertise.
My practical skills were perfected in the context of a family business operating in the building materials industry.

Education

Ohel Shem High School, Ramat Gan.
Open University - B.A. Computer Science courses.
HackerU College - web and mobile applications development course.
Udemy Courses.

Languages

Hebrew - native language.
English - advanced.
